

## Afford-A-Wall Folding Room Divider (Polycarbonate)

Option to mix 'n' match fabric & polycarbonate panels

### Product Features

Multiple  
Configurations

Patented 360 degree articulating hinges allow full rotation of each panel to allow easy manipulation and infinite configurations including zig-zag, L-shape, curved and straight line.

Sound  
Dampening

Engineered fluted polycarbonate panels offer outstanding sound insulation for superior acoustic performance.

Easy Wash

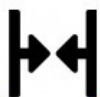

Polycarbonate panels are 100% waterproof and cleanable. Ideal for specialist hygiene environments.

Customisable

Mix and match fabric colours and finishes (fabric and polycarbonate) to create your own unique product. Company logos and artwork can also be printed directly onto panels.

Easy Storage

Lightweight and easy to fold, move and store. Folds down to 85cm x 9cm. Simply roll away when not in use for quick and easy storage.

Safety First

Our patented no-pinch hinges reduce the possibility of fingers getting pinched.

Simple  
Assembly

Ships semi-assembled. Simply attach the support bases or wheels as desired and position into place.

Manufactured in  
Australia

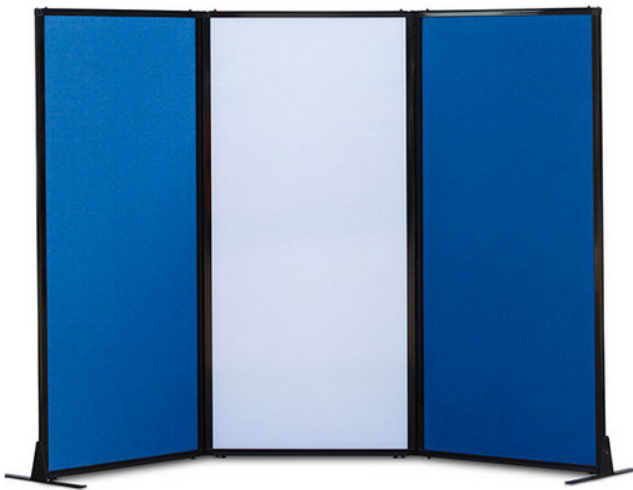

Manufactured and assembled in our Sydney factory ensuring the highest quality.

## Product Description

---

- A simple 3-panel acoustic folding room divider which can be positioned straight or in any non-linear shape such as zig-zag, curved and L-shape.
- Available in a length of 2.54m and three heights – 1.83m / 2.02m / 2.29m.
- The Polycarbonate panels allow light transmission from 12%-82% depending upon color selection.
- Strong and durable providing greater protection against breakage. The impact strength is 10-17 times that of Plexiglas.
- Panels offer outstanding UV protection both through the surface and in colour fading.
- Can maintain their properties from an extreme temperature range from 40C to 120C (-40F to 248F).
- Supplied with both support bases and wheels – you choose.
- The frame of the room divider is constructed of extruded lightweight aluminum profiles joined with cast aluminum corners joints for light weight strength and durability.
- Non-marking, low profile casters provide low clearance, meaning additional noise reduction and a lower centre of gravity for extra stability.
- Hang objects such as artwork, photos, whiteboards etc. over the top of the acoustic folding room divider to make mobile galleries, information walls or classrooms.

If you prefer this folding room divider with a fabric finish , check out our [Afford-A-Wall Folding Room Divider \(Fabric\)](#)

If you prefer a 3-panel straight line sliding room divider, check out our [Sliding Mobile Room Divider Afford-A-Wall \(Polycarbonate\)](#) or [Sliding Mobile Room Divider Afford-A-Wall \(Fabric\)](#)

For a longer folding portable room divider, check out our [360 Acoustic Portable Room Divider \(Polycarbonate\)](#) or [360 Acoustic Portable Room Divider \(Fabric\)](#)
