

## 360 Acoustic Portable Room Divider (Polycarbonate)

Option to mix 'n' match fabric & polycarbonate panels

### Product Features

Multiple Configurations

Patented 360 degree articulating hinges allow full rotation of each panel to allow easy manipulation and infinite configurations including zig-zag, L-shape, curved and straight line.

Sound Dampening

Engineered fluted polycarbonate panels offer outstanding sound insulation for superior acoustic performance.

Easy Wash

Polycarbonate panels are 100% waterproof and cleanable. Ideal for specialist hygiene environments.

Customisable

Mix and match fabric colours and finishes (fabric and polycarbonate) to create your own unique product. Company logos and artwork can also be printed directly onto panels.

Easy Storage

Lightweight and easy to move and store. Folds down to 85cm x 85cm. Simply roll away when not in use for quick and easy storage.

Safety First

Our patented no-pinch hinges reduce the possibility of fingers getting pinched. Extra partition stability is created via full panel end members.

Fully Assembled

Ship fully assembled. Simply unbox and roll into place.

Manufactured in Australia

Manufactured and assembled in our Sydney factory ensuring the highest quality.

*Transform office spaces using bespoke fabric colours and finishes (fabric and polycarbonate panels mix 'n' match)*

*Combining mixed clear and white polycarbonate panels to create an eye-catching finish within this college break-out area*

*Mix 'n' match white polycarbonate and blue fabric panels to create a custom look and finish*

*White polycarbonate panels used to create a private consultation booth within a local pharmacy*

*Combining polycarbonate and fabric panels to better utilise space within this bowling club*

## Product Description

- Stylish acoustic portable room divider incorporating folding polycarbonate plastic panels.
- Available in four lengths 2.59m / 4.27m / 5.94m / 7.62m and three heights 1.83m / 2.02m / 2.29m.
- Featuring a lightweight, waterproof, impact resistant and translucent polycarbonate core with a durable aluminum frame.
- Enjoy the privacy of a room divider while allowing light to come through and illuminate the area.
- The Polycarbonate panels allow light transmission from 12%-82% depending upon color selection.
- Strong and durable providing greater protection against breakage. The impact strength is 10-17 times that of Plexiglas
- Panels offer outstanding UV protection both through the surface and in colour fading.
- Can maintain their properties from an extreme temperature range from 40C to 120C (-40F to 248F).
- Perfect for any indoor or outdoor application.
- Features a full panel end member, which increases acoustical properties by trapping sound and ensure maximum room divider partition stability. This feature also eliminates any tripping hazard.
- The frame of the room divider is constructed of extruded aluminum profiles joined with cast aluminum corners joints for light weight strength and durability.
- Non-marking, low profile casters provide low clearance, meaning additional noise reduction and a lower centre of gravity for extra stability.
- Fully lockable 3 inch wheel castors are included on the full panel end members to lock and hold the partition in position once set-up.
- Velcro unit-to-unit connectors to join multiple units together to form longer lengths of room divider.
- Includes a unique transportation lock to hold it in the folded position while moving the room divider from location to location.
- The stability of the portable room divider allows for hanging objects such as artwork, signage photos etc. Whiteboards can also be easily hung from the partition via simple optional hooks mounted along the top rail track of the panels.
- Accessories such as light Flat Screen TV's and other presentation devices can also be attached via mounting brackets.

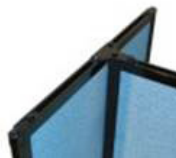

If you prefer this divider in a fabric finish, check out our 360 Acoustic Portable Room Divider (Fabric)

For a straight line sliding version of this room divider, check out our StraightWall Acoustic Portable Partition (Fabric) or StraightWall Acoustic Portable Partition (Polycarbonate)
